TOP PRIORITIES

Resolve these first

1. Confirm monthly budget

Include rent, utilities, school fees, health insurance, car costs, groceries, and deposits.

2. Shortlist schools / commute

School location can change the right neighborhood more than almost anything else.

3. Rent before buying

Use the first lease to learn the island before making a major real estate decision.

TIMELINE

Next 90 days

Week 1 Confirm budget range, family requirements, school assumptions, and preferred arrival window.

Weeks 2-4 Review rental inventory, school options, health insurance, banking, and car setup costs.

Month 2 Plan visit or arrival logistics; begin targeted introductions if moving timeline is firm.

Month 3 Secure housing path, finalize provider list, and map first-month setup tasks.

USEFUL INTRODUCTIONS

People worth speaking with

Real estate advisor

Rental/buying guidance by neighborhood and budget.

School contact

Admissions, availability, fees, and commute fit.

Immigration lawyer

Work permit, residency, or business setup questions.

Insurance / healthcare

Coverage, family doctors, pediatric care, and urgent care.

Recommended next step

Use this as the working brief for the next call or email follow-up. The point is to narrow decisions, not overwhelm you with every possible Cayman option.

-> Confirm your preferred school / commute priority.

-> Share your target monthly housing budget.

-> Decide whether you want introductions now or after dates are firmer.
